

## Tirana Climbing & Treetop Urban Park (Tirana Lake Grand Park)

about project

# L51

### Budget

EUR 50,000 (Ex. VAT)

### Municipal contribution

Tirana Municipality / TPRA can cover about 15% of the total budget in addition to the provision of the land.

### Municipal sectors/ directorates

Tirana Parks and  
Recreation Agency

**BETTER  
LIVING**

### PROJECT DESCRIPTION

The Tirana Climbing and Treetop Park is guided by the belief that sports are a fundamental part of a child's development as well as for a healthy youth and society. Focused on modern climbing techniques and proper use and care of climbing equipment, with an emphasis on safety and environmental stewardship of natural climbing sites, the Park will be the first climbing community after more than 20 years of absence of recreational sports in nature. The park will be also an "environmental school" and a fun spot where families and groups of people can enjoy spending time by doing challenging courses, from alpinism exercises to climbing and high treetop crossings.

### OVERALL OBJECTIVE

Tirana Climbing & Treetop Adventure Park will be the first center of its kind in Albania which will give an added value to the Grand Park of the Artificial Lake in Tirana and the city of Tirana. It will create more activities for the community to spend active time in a public park. The whole journey in the park will be with the focus on respecting trees, the life of other creatures, and how to keep a balance between nature and humans.

### PROJECT IMPLEMENTATION MODALITY

The project foresees two stages:

The first stage includes the assessment of the current state of the park and areas that can be suitable, discussions with the public and drafting of the initial project and management plan.

The second stage includes the building of the Climbing & Treetop Park, its harmonization with the existing infrastructure and the installation of the two complementary educational stations.

### PRELIMINARY IMPACTS

This initiative will provide the first Climbing Park inside a green space close to the city where the Tirana community will spend exciting hours in a safe manner, far from sedentary lifestyles and in a clean environment. It will be one of the first adventure oriented projects in Tirana and it will also provide economic advantages by providing additional jobs and economic activities for businesses in the area.
