PROJECT IMPLEMENTATION MODALITY

The publication “Invest in Tirana” is conceived as a periodical publication designed to assist foreign and local investors. The first phase of the implementation of this project will be the collection of data, including a summary of the legal basis of doing business in Tirana and statistical data related to the workforce and other indicators relevant for any entrepreneur who decides to invest in Albania. The second phase will be the examination of the collected material and the compilation of the text. And the third phase will be related to the graphic design of the publication.

PROJECT DESCRIPTION

The publication “Invest in Tirana” will contain all the information a local or foreign investor needs before he decides to invest. This publication will describe the regulatory framework to be observed by the investor, the follow-up of regulatory reforms, procedures and time frames by avoiding obstacles of bureaucracy, in compliance with their evolution in different sectors. It will reflect fiscal policies, central and local, to avoid effects of unforeseen legal effects related to the fiscal framework. In view of the tax system, all types of taxes will be provided for, by specifying particularly those including incentive liabilities, information on the workforce and other economic indicators.

OVERALL OBJECTIVE

To collect all the necessary information regarding doing business in Tirana in a single publication in order to promote Tirana and to attract foreign investments.

PRELIMINARY IMPACTS:

- ⇒ Orientation of the development of local and foreign business in Tirana;
- ⇒ Foreign investments attracted;
- ⇒ Employment increased;
- ⇒ The legal framework to be followed made transparent;
- ⇒ All phases of procedures at a central and local level carried out;
- ⇒ The obligations of each investor regarding the liability for the respective documentation.
